Description: Ash is a light toned wood with striking graining and medium color variation. Its tones are somewhat consistent with streaks of brown running through the wood. The standard Ash top is 25" deep and on the foot mark up to 144" but other sizes are available. The maximum sized (one piece) top is 144" long and 48" wide. We make most of the tops at 1 1/2" thick but 3" is also a common size requested. Other thicknesses are available at an up charge. The standard edge profile is square. If another edge is desired please request it on your quotation or order. Custom jobs are quoted via facsimile. Currently Ash tops are only being glued in our Petoskey, MI. and our Bally PA. facilities. . The 3" Ogee edge is available in ash.
